About me

Hi! I'm Mateo, a full-stack developer (vue / node) with about 6 years of experience in retail and small business. I speak Portuguese (native), Spanish (fluent), English (fluent). Tools I use: Vue, Node.js, PostgreSQL, Docker and React. Also good at: REST APIs, Docker.

Experience

05/2020 - now: Full-Stack Developer at Paulista Apps (retail)
Shipped production features with Vue, Node.js, PostgreSQL and Docker for a retail product used by thousands of customers.

02/2024 - now: Front-End Developer (freelance) at Self-employed (small business)
Designed, built and tested React code for small business clients, from database to UI.

Education: B.Sc. Computer Science, USP, 2019
